COMPANY PROFILE

Ashapura Engineering Works (AEW) manufactures Injection Moulding Machine (Vertical / Horizontal) This Quality Machine Manufacturing Company is Based at Ahmedabad in Gujarat. **Balubhai** the Prop. is an Intelligent and Hard Working Technician with the Experience of 32 Years. The Machines Manufactured by him are running Successfully all over India. The export quality machines made by him gives high performance in production with low power consumption, Most of his clients are those who want quality Products with low budget.

You can rely on **Ashapura Engineering Works** since its Prop. Balubhai & his team has class experience of & his team machine manufacturing with their technical and hard working skill. Company's moto is to give best service, Best Machines in different models and best service at its clients door steps.

TECHNOLOGY WITH THE MACHINE

- ❖ Open Loop Hydraulic System with Variable Piston Pump for the Power Saving Up to 30%
- ❖ Electro Praportional Valve for Fine Controle of Pressure & Flow.
- ❖ PLC Based 12 Line LCD Screen Displayed Microprocess Controller for Perfect Operation.
- ❖ Electro Linear Scale For Require Pressure & Flow At particular Position of Injection & Locking.
- ❖ Five Point "d" - Type Tapper Toggle For Positive Locking.
- ❖ Square Platern Area.

AEW -1

Vertical Toggle Type Semi Auto Four Pillar

Capacity :	30 gm to 500 gm
------------	-----------------

AEW -2

Vertical Semi Auto Four Pillar

Capacity :	150 gm to 1 kg.
------------	-----------------

AEW -3

Vertical Toggle Type Semi Auto Machine

Capacity :	50 gm to 500 gm
------------	-----------------

AEW -4

UPVC Vertical Semi Auto Machine

Capacity :	150 gm to 1 kg.
------------	-----------------

AEW -5

Horizontal Injection Moulding Machine

Capacity :	50 Ton to 400 Ton
------------	-------------------

Mfg. of : Injection Moulding Machine,
Vertical Screw Type Semi Auto
